

REACH Compliance Declaration

We hereby declare that our products fully comply with the related requirements of the European Union Regulation (EC) 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH).

LAUDA does not manufacture any substances or preparations affected by REACH, nor does it import any. REACH relevant substances are not intentionally released by LAUDA products. Accordingly, we foresee no registration or authorization requirement for the products supplied.

With regard to the requirements of Article 67 of REACH, based on the information from our suppliers, we declare to the best of our knowledge that LAUDA products comply with the restrictions listed in Annex XVII.

With regard to the requirements of Article 56 of REACH we declare to the best of our knowledge that LAUDA products comply with the authorisation list in Annex XIV.

With regard to the information requirements of Article 33 of REACH we declare that except Note 1 to 10 none of the SVHC (the Candidate List of Substances of Very High Concern for authorization released by ECHA on January 23rd, 2024) is present in LAUDA products in a concentration of equal or above 0.1 percent.

As set out in REACH terms, LAUDA is a "downstream user" and therefore strongly dependent on the information provided of our suppliers active or on demand. Therefore, in our own interest and in the interest of our customers, we are in constant dialog with our suppliers in order to check that all of the products delivered are REACH compliant and we are informed about SVHC contained if necessary.

If REACH regulation is updated, such as the addition of SHVC into Annex XIV or the addition of restriction of substances in Annex XVII, LAUDA will evaluate the impact in time and update this declaration to reflect changes if necessary.
