Factory certificate for Versafreeze/Mobifreeze

Part Number: A000146

Features

- The factory certificate documents in detail the spatial and temporal temperature constancy of the specific LAUDA freezer (at a specified temperature) over 72 hours.
- All measurement data are determined in the factory using a calibrated measurement section and archived over the long term.
- Nine sensors are positioned on three levels within the empty usable space.
- A detailed report is provided, including a copy of the calibration certificate for the measuring instruments.
- With this device-specific factory certificate, our customers can e.g. prove the quality of the deep-freeze devices and the storage conditions if they have to comply to special approval guidelines, e.g. B. the US health authority FDA
