Universa U 15 TP

Heating thermostat 200-240 V; 50/60 Hz

Part Number: L003937

### Features

- Bath circulation thermostat with advanced electronics ensures precise control accuracy
- Future-proof thanks to modularity: LAUDA Universa with interchangeable control head and heating/cooling base allows flexible adaptation to current and future requirements.
- Clear overview, intuitive operation: The 3,5-inch colour TFT display provides a progression graph, offers a clear menu navigation in six languages and easy to read operating status icons - easily controlled via cursor and soft keys.
- Focus on safety: The dedicated Tmax button provides convenient access to the essential overtemperature protection setting during commissioning.
- Efficient vario pump with six adjustable performance levels. The flexible flow distribution for internal and external circulation ensures optimum volume flow and pressure.
- Easily accessible front switch on the control head allows the pump output to be adjusted during operation.
- Adaptive bath edge ventilation (patent application): - Prevents icing and condensation - Stops water entering the bath - Blocks vapors to protect electronics. To increase operational safety and extend service life.
- Features include programmer, calibration options and weekly scheduler for versatile and precise process control.
- Intelligent remote control and monitoring: Integrated web server allows flexible remote control in the company network via the LAUDA Command app or browser-based, secured by PKI and 2-factor authentication. The connection to LAUDA.LIVE enables global, cloud-based data analysis and remote maintenance.
- Flexible networking: Modern connectivity through integrated Ethernet and USB interfaces as standard, plus eleven optional interface modules for versatile communication solutions.
- Wireless communication: Integrated WLAN enables effortless connection with PC, tablet and smartphone.
- Comprehensive safety concept: - Reliable low-level protection with float technology, - Adjustable overtemperature protection with acoustic alarm, - Smart temperature control media management with automatic limit value adjustment. For reliable operation and improved safety of your valuable samples.

Reserve technical changes

### Options included

- Integrated Wi-Fi communication: The device may only be imported and used in certified countries and regions: United States of America, Canada, EU including the UK and Switzerland, and India.

30 °C

Working temperature max.  
100 °C

## Technical Features

|                                                 |                                      |
|-------------------------------------------------|--------------------------------------|
| Working temperature range                       | 30 ... 100 °C                        |
| Working temperature range with external cooling | 20 ... 100 °C                        |
| Operating temperature range                     | -30 ... 100 °C                       |
| Ambient temperature range                       | 5 ... 40 °C                          |
| Temperature stability                           | 0.01 ± K                             |
| Heating capacity range                          | 1.9 ... 2.8 kW                       |
| Power consumption max.                          | 2.9 kW                               |
| Current max.                                    | 12 A                                 |
| Size of bath (W x D x H)                        | 263 x 130 x 310 mm                   |
| Bath opening (WxT)                              | 263 x 130 mm                         |
| Bath volume min. / max.                         | 12.9 / 15.0 L                        |
| Pump Pressure max.                              | 0,6 bar                              |
| Pump flow rate max. (pressure)                  | 22 L/min                             |
| Overall dimensions (WxDxH)                      | 432 x 191 x 555 mm                   |
| Weight                                          | 17 kg                                |
| Power supply                                    | 200-240 V, 50/60 Hz                  |
| Power plug                                      | Power cord with angled plug (BS1363) |
