LAUDA Universa U 1645 M

Cooling thermostat, 200-240 V; 50/60 Hz

Part Number: L004188

### Features

- Bath circulation thermostat with advanced electronics ensures precise control accuracy
- Future-proof thanks to modularity: LAUDA Universa with interchangeable control head and heating/cooling base allows flexible adaptation to current and future requirements.
- Clear overview, intuitive operation: The 5-inch colour TFT display simultaneously shows temperature values with a progression graph, offers clear menu navigation in six languages and clear operating status icons - easily controlled via cursor and soft keys.
- Focus on safety: The dedicated Tmax button provides convenient access to the essential overtemperature protection setting during commissioning.
- Versatile pressure-suction pump: The LAUDA Varioflex pump, a powerful pressure-suction pump, offers eight selectable performance levels, adjustable flow rate distribution for internal/external circulation for optimal volume flow and pressure
- Ball bearing pump for extreme requirements: Guarantees safe operation with highly viscous and dense heat transfer fluids as well as with impurities in the temperature control bath.
- Easily accessible front switch on the control head allows the pump output to be adjusted during operation.
- Highly efficient refrigeration technology: Combination of speed-controlled inverter compressor and capacity control by means of electronic expansion valves and speed-controlled fans - for improved energy efficiency and reduced operating costs, - increased service life by avoiding frequent switch-on and switch-off cycles, - dynamic approach to the set temperature and - quieter operation.
- Environmentally friendly refrigerants: Use of natural refrigerants for sustainable and environmentally conscious cooling.
- Adaptive bath edge ventilation (patent application): - Prevents icing and condensation - Stops water entering the bath - Blocks vapors to protect electronics. To increase operational safety and extend service life.
- Extensive functionality with programmer, safe mode, calibration options, controller self-adaptation and weekly planner for precise and flexible process control.
- Intelligent remote control and monitoring: Integrated web server allows flexible remote control in the company network via the LAUDA Command app or browser-based, secured by PKI and 2-factor authentication. The connection to LAUDA.LIVE enables global, cloud-based data analysis and remote maintenance.

LAUDA Universa U 1645 M

Cooling thermostat, 200-240 V; 50/60 Hz

Part Number: L004188

### Features

- Maximum networking: Comprehensive connectivity for almost any application thanks to standard Ethernet, USB and interface for an external Pt100 as well as eleven optional interface modules.
- Comprehensive safety functions: - Effective over- and under-level protection - Adjustable overtemperature protection with acoustic alarm - Automatic system diagnostics at start-up with alarm and error message display - Smart temperature control media management with automatic limit value adjustment. For reliable operation and improved safety of your valuable samples.

Working temperature min.  
-45 °C

Working temperature max.  
200 °C

## Technical Features

|   |  |
|---|--|
| Working temperature range               | -45 ... 200 °C                         |
| Operating temperature range             | -45 ... 200 °C                         |
| Ambient temperature range               | 5 ... 40 °C                            |
| Temperature stability                   | 0.01 ± K                               |
| Heating capacity range                  | 2.8 ... 3.7 kW                         |
| Power consumption max.                  | 3.8 kW                                 |
| Current max.                            | 16 A                                   |
| Size of bath (W x D x H)                | 200 x 300 x 200 mm                     |
| Bath opening (WxT)                      | 200 x 300 mm                           |
| Bath volume min. / max.                 | 10.5 / 16.5 L                          |
| Pump Pressure max.                      | 0,7 bar                                |
| Pump suction max.                       | 0,4 bar                                |
| Pump flow rate max. (pressure)          | 25 L/min                               |
| Pump Flow rate max. (suction)           | 23 L/min                               |
| In / Outlet connection thread (outside) | M16 x 1                                |
| In / Outlet Ø olives                    | 13 mm                                  |
| Overall dimensions (WxDxH)              | 310 x 610 x 757 mm                     |
| Weight                                  | 49 kg                                  |
| Refrigerant stage 1                     | R-1270 (GWP 2); 0.075 kg; 0.0 t CO2-eq |
| Power supply                            | 200-240 V, 50/60 Hz                    |
| Power plug                              | Power cord with plug (GB2099, 15934)   |
