

# PRODUCT DATA SHEET

## ECO ET 12 G

The LAUDA ECO stands out due to its range of functionality and ease of use. A menu navigation in plain text allows easy operation of the devices. Both control heads are equipped with a mini-USB interface as standard. Further interfaces are available as modules. Another innovation is the practical allocation of a flow-rate switch at the front on the control head. This means that individual adjustment of the flow between internal and external circulation is possible even during operation. Variants in 230 V; 50 Hz are also available with natural refrigerants. The most powerful units are equipped with the energy-saving LAUDA SmartCool system. All cooling thermostats are available as air-cooled or water-cooled variants.

Working temperature min.  
20 °C

Working temperature max.  
100 °C

### Technical Attributes

### ECO ET 12 G

Working temperature min.	20 °C
Working temperature max.	100 °C
Ambient temperature min.	5 °C
Ambient temperature max.	40 °C
Temperature stability	0.01 ±K
Application	external   External and inside the bath   Inside the bath
Heater power	2.6 kW
Power consumption	2.7 kW
Bath volume min.	9.5 L
Bath volume max.	12 L
Bath opening width	300 mm
Bath opening depth	175 mm
Bath depth	160 mm
usable depth	140 mm
Dimensions (WxDxH) in mm	322x331x389
